Key: A

Sir MidlaQ

warm up before

night 2x

Sail on the sea of body parts having laugh
water is getting cold
reflection of your soul merging with the boat

these waters are banned for you
The moon would shoot you on sight

you should prepare and warm up
before the night

Night 4x

Salt is burning your skin
blue ice came through the nose
of the wooden chin
right amount of overdose

stuck and cold even more than before
but there is still one light

you should prepare and warm up
before the night

Night 4x

Wreckage is floating through the wasteland
the unholy are eaten from my hand
what's left over the captain's dry head
