

Virus

Sir MidlaQ

Key: A

One step is more than enough
where should I go now
Why would you carry these stuff
You have to survive this somehow

Your emotions spread like a virus
catchin one to another

We are your thoughts dont try deny us
attach your pain to the closest thing walking around you

Sea gulls made voiceover track
I know where to go now
The stuff is now breaking ur back
you still you have to survive somehow

Your emotions spread like a virus
catchin one to another

We are your thoughts dont try to deny us
attach your pain to the closest thing walking around you

As you wait for meeting my shadow
lady in darkness is calling the widow

Engage the dance with a giant ring
Shadow stays lonely behind the scene
