

Honey Lullaby

Sir MidlaQ

Key: A

who s there is it you or is it all me
I am king the god of all things
moon is mine to give who I see fit
all the animals bear with me talkin

go away I dont want you here
Invited others to dinner pigs feast on the royal wedding
there are only voices no bodies to feast on
calm them with honey lullaby
aiming to be gone

Hear me out hear me now
everything iam amused about

hear me out hear me now
talk to the ones on the other side
do you know that you have your own star

all and all its quiet night we r having a good time
except the filthy souls in presence of mine
distract the guests and turn the lights on
calm them with honey lullaby
aiming to be gone
calm them with honey lullaby
aiming to be gone

Hear me out hear me now
everything iam amused about

hear me out hear me now
talk to the ones on the other side
do you know that you have your own star

spit me piece of your world
give me hint whats inside
crack open the fact
of being someone who died
